HEARING PROBLEMS?

Because the first step toward obtaining help for a hearing impairment usually is to have a hearing test, each community should insure each citizen has the opportunity to obtain a convenient, economical annual hearing test.

A VISIT THAT SAVED A LIFE

This happened in midtown Manhattan in the 1950's.

A well known advertising executive was busy at his desk when his secretary announced a visitor from the American Cancer Society.

He welcomed a volunteer who wanted to give the executive some "life-saving information." It was accepted, and forgotten for several hours.

Before retiring that night, the executive picked up the material, which included the Seven Warning Signals of Cancer. He read them carefully, and the next morning was startled to discover that he had one of the Warning Signals.

It developed, when the executive went to his doctor, that he had bladder cancer, and needed surgery.

Today, almost two decades later, that man is cured of cancer--because of the Seven Warning Signals, the volunteer from the American Cancer Society and the quick trip to a physician.

But that's not the end of the story, for that person who spotted the signal, and who underwent surgery, is William B. Lewis, today the Chairman of the Board of Directors of the American Cancer Society.

Mr. Lewis has developed into one of the busiest of the ACS's 2,300,000 volunteers and, wherever he goes, enthusiastically tells the story of that visit in Manhattan.

It punctuates the dark room, the sad room, the happy room, with its incisive classic quality.

Can you count the number of interior decorators who soften harsh lines with roses?

What photographer can say he has never created an instant focal point with roses?

What holiday is there where a bouquet of roses would be inappropriate?

What lovely spot in a home, an office, a hospital, a church, does not warm up in the colorful light of a few cut roses?

Lawson Ford, Inc. Announces Registration For P,P & K Contest

Registration for the area's 12th annual Punt, Pass and Kick Competition for boys ages eight through 13 is now open and will remain open through September 29th, according to an announcement made by Dick Bland, General Manager at Lawson Ford, Inc. In making the announcement, Bland said, "We're looking forward to a big Local PP&K Competition in Appomattox. We hope all the boys 8 - 13 years of age in this area will come in and register in our showroom."

The PP&K Competition is sponsored by Lawson Ford and the Appomattox County Jaycees. Throughout its six levels of competition, they point out, it is free of charge, and that a boy need only have a parent or guardian accompany him to the showroom to register.

The competition will have 1st, 2nd and 3rd place trophies for boys in each of the six age groups, or 18 trophies in all.

There is no body contact in PP&K. It's punting, passing and place kicking for distance and points, just as the name says. First place winners in each age group in our competition will go on to the Zone competition and from there, top winners go on up the ladder through District, Area, Division and National Finals. Naturally, we hope some of our area boys will make it all the way to the Finals.

Mr. Bland, the Ford Dealer, further explained that each boy upon registering receives a free PP&K Tips Book. In the 1972 edition, there are competition tips by NFL stars Dave Lewis, Roger Staubach and Garo Yepremian plus all-round suggestions from Coaches of the Year, Don Shula and Tom Landry. The Tips Book also includes complete PP&K rules and helpful conditioning exercises for contestants.

Remember, PP&K registrations will close at Lawson Ford on September 29th. Be sure to register in time for this event.
